Last update today, I promise.

I spoke with Debbie Hoffman, they are satisfied with our plan to connect with them outside of the demo area to protect their workers and they will contact me with any concerns they have that are demo related.

Tks

An fyi for you. As I'm sure you've been told, tensions are high around child protection issues due to media attention yesterday. Let me know if you need more details. I spoke with CAS, they will not be attending the demo area and are satisfied that any officer having to make a decision on the spot on who can be a responsible guardian for a child will do so with the best interest of the child in mind, considering any medical needs and providing contact information for any follow ups. If they were required to assist they ask that they be contacted outside the red zone, at their 24hr #613-747-7800. Alternatively, I will have 2 Sgts available after 7 am in SACA at Ext 5944 to assist with any matters involving child safety.

On my cell if you need anything further, [REDACTED]

Shelley

Yes, I just got off a call with CAS. They are getting hammered with threatening and aggressive callers from inside the demo and across Canada referring to this as another 60s scoop. I spoke with [REDACTED] at the demo, trucks are now putting signs up to the affect of the government not taking their children and going to war for their kids. Needles to say, CAS will not be doing any proactive visits to the red zone. We still do not have any active investigations for child welfare/safety or plans to initiate one. We will set up the office in order to accept an increase in CAS consults and be prepared for any parallel investigations.

Just to keep you in the loop.

Hi Shelley,

Pls see case # 22-34014.

Apparently, there is a live video stream, by one of the protestors, telling people to bring as many children as possible to the rally, in order to hinder any police action.

Thx.

Nicola
